A physician referral is required for a COVID-19 test at Valley View. Call your primary care provider to determine if you are eligible for testing. To confirm that Valley View Hospital has received your physician order, call 970.384.6856.

Stable patients experiencing COVID-19 symptoms can call any of our primary care practices to determine next steps for testing/treatment. Every attempt will be made to schedule both established and nonestablished patients quickly.

Valley View After Hours Urgent Care is also available to treat non-emergent illnesses that require medical attention, after hours and on weekends. Located in Glenwood Springs, call 970.384.7315. For medical emergencies please call 911 or go immediately to the emergency room.

After Hours Urgent Care Hours

Monday – Thursday: 5 – 11 p.m.
Friday: 3 – 11 p.m.
Saturday – Sunday: 12 – 10 p.m.

Vaccine information

Please contact your physician or one of our primary care providers with questions related to COVID-19 vaccine options and for further guidance.

- COVID-19 vaccines are now available to anyone age 12 and older (only Pfizer for those under 18 years) and Pfizer, Moderna, and Johnson & Johnson for anyone 18 years of age and older. Contact each clinic directly regarding which vaccine is available and schedule an appointment as vaccine type and availability will vary.
- Valley View is following the FDA and CDC guidelines/recommendations for third COVID-19 vaccine/boosters. Currently, the CDC recommends a third dose 28 days after second dose of both Moderna and Pfizer for immunocompromised individuals **and** a booster six months from second dose for only Pfizer. Boosters are recommended for:
 - individuals 65 years of age and older;
 - individuals 18 through 64 years of age at high risk of severe COVID-19; and
 - individuals 18 through 64 years of age whose frequent institutional or occupational exposure to SARS-CoV-2 puts them at high risk of serious complications of COVID-19 including severe COVID-19.
- Garfield county public health has additional resources for both testing and vaccines.
 - Garfield-County.com/Public-Health/Novel-Coronavirus and RFVcovidtest.com.
