

Your
gift
matters.

Philanthropy drives innovation and plays a vital role in providing the very best care for our community.

THANK YOU for making so much possible.

VVH.org/Foundation

Thank you for your generosity!

2022 Highlights

- **393** individuals, families and companies made a gift to support the health of our community
- Nearly **\$1 million** was raised to support innovation and excellence in care at Valley View
- Valley View employees donated over **\$50,000** to enhance patient care

Your Giving. Your Impact.

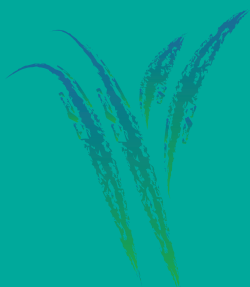

"I donate to Valley View through the Cornerstone employee giving program because I care about giving back to my Valley View family. We have amazing people from all walks of life at Valley View, and it feels good to know my contribution directly helps team members in need."

– Ashley Worthington,
Valley View Marketing Director

Nearly \$1 million raised to support patient care!

In the past year, generosity from donors in our region allowed care providers at Valley View to move mountains for their patients and administer ever more comprehensive, personalized care. Read about a few of the ways your generous support made a difference for patients at Valley View in 2022:

1. Funds raised by generous community and Valley View staff donors supported the purchase of **two rapid blood infusers**. These sophisticated **military-grade** infusers provide an added level of emergency care for patients experiencing severe blood loss, serving as a **life-saving tool** to assist patients in critical need. The simplicity of the infusers allows care providers to become proficient in utilizing the equipment quickly and easily, and with **every second counting** in the event of a hemorrhage, skilled use of this equipment by expert staff members truly **saves lives**.
2. Generosity from donors in our region made an incredible impact for **spine surgery patients** at Valley View. With support from our community, Dr. Wade Ceola and his team at the Spine Center were equipped with a **state-of-the-art MazorX Spine Robotic Guidance Platform**. This sophisticated equipment offers spine surgery patients a **faster recovery time, decreased risk of infection, and less pain** by performing ever more minimally invasive procedures. For patients experiencing chronic back pain, successful spine surgery can bring a return to normal activity; donor support of this technology truly **helps spine surgery patients get their lives back**.
3. Family, friends, and loved ones made a difference for patients of the Calaway•Young Cancer Center and celebrated the resiliency of survivors at the final Rally the Valley. **100% of the funds raised** at Rally the Valley **directly support cancer patients** at Valley View, providing key resources such as **gas and grocery cards, overnight lodging, and integrated therapies** during treatment. To continue providing funds towards these integral resources and to create permanent access to these services, the Valley View Foundation is excited to announce plans for an **\$8 million endowment** to contribute earnings to sustainably **support these efforts in perpetuity**.
